(Disclaimer: The energy and words that are expressed by Ataana in Ataana's Sessions or classes are energetically spoken and are from his source of Oneness, meaning positive or negative words are not to be taken literally but in the context of Oneness*. Sometimes he also channels specific situations to bring them into awareness. Ataana can not be and will not be held responsible if words are taken out of private sessions, classes or context, misunderstood or in any form expressed outside of these specific sessions).

*Oneness is a state of being without the judgment of good or bad. where one understands that positive and negative thoughts or words or energies are part of the whole, not the end product. but the beginning energies that have to be accepted in order to see the whole. Like electricity doesn't make the light bulb work unless balanced energies are present, a state of wholeness with this multi verse.
